INNOVATION DAY 2019

Learning in a new light

Innovation Day is dedicated to all the new and unconventional ways students, teachers, and the AC community teach and learn, shaking things up from how it's always been done.

Join us throughout the day for:

SCIENCE FAIR: Students in Grades 5-12 will present their projects to judges and prizes will be awarded.

PITCH COMPETITION: Students in Grades K-12 will pitch a new service or product business to a panel of judges and be awarded.

INTERACTIVE WORKSHOPS: Students in all Grades K-12 will present at least one workshop on topics like dying fabric with food; which is better for memory: computer screen or paper; and antibiotic resistance.

RSVP AT ALLENDALECOLUMBIA.ORG/INNOVATIONDAY

Presented by the AC Center for Entrepreneurship & AC Invent Center
